INDEPENDENT AUDITOR'S REPORT

Board of Directors
Chimney Hill Municipal Utility District
Harris County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Chimney Hill Municipal Utility District (the "District"), as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 7 and the Schedules of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund and Special Revenue Fund on pages 37 and 38 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

**CHIMNEY HILL MUNICIPAL UTILITY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

Management's discussion and analysis of Chimney Hill Municipal Utility District's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended September 30, 2014. Please read it in conjunction with the District's financial statements, which begin on page 8.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide portion of these statements provides both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of the government-wide statements is the Statement of Net Position. This information is found in the Statement of Net Position column on pages 8 through 11. The Statement of Net Position is the District-wide statement of its financial position presenting information that includes all of the District's assets, liabilities, and deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The government-wide portion of the Statement of Activities on pages 13 and 14 reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has four governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, costs and general expenditures. The Special Revenue Fund accounts for financial resources collected and administered for the operation of the wastewater treatment plant. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund

**CHIMNEY HILL MUNICIPAL UTILITY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

FUND FINANCIAL STATEMENTS (Continued)

accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Governmental funds are reported in each of the financial statements. The focus in the fund financial statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position on page 12 and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities on page 15 explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO FINANCIAL STATEMENTS

The accompanying notes to financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to financial statements can be found on pages 16 through 35 in this report.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI"). Budgetary comparison schedules are included as RSI for the General Fund and the Special Revenue Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, liabilities exceeded assets by \$490,873 as of September 30, 2014.

A portion of the District's net position reflects its net investment in capital assets (land, buildings and equipment as well as water and wastewater facilities, less any debt used to acquire those assets that is still outstanding).

The following is a comparative analysis of government-wide changes in net position:

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of the fiscal year ended September 30, 2014, were \$5,568,682, a decrease of \$101,839 from the prior year.

The General Fund fund balance increased by \$123,644, primarily due to service revenues exceeding operating expenditures during the current fiscal year.

The Debt Service Fund fund balance decreased by \$226,087, primarily due to a timing difference between tax collections and debt service payments.

The Capital Projects Fund fund balance increased by \$604.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors amended the budget during the current fiscal year to increase the budgeted amount for property tax revenues by \$40,000. Actual revenues were \$66,635 more than budgeted revenues. Actual expenditures were \$38,111 less than budgeted expenditures. See budget and actual comparison schedule on page 37.

CAPITAL ASSETS

Capital assets as of September 30, 2014, total \$8,338,990 (net of accumulated depreciation) and include land, buildings and equipment as well as the water and wastewater systems. Significant capital asset events during the current fiscal year included completion of the GIS system. Construction in progress includes sanitary sewer rehabilitation planning and design, phase II.

Total Fund Balances - Governmental Funds \$ 5,568,682

Amounts reported for governmental activities in the Statement of Net Position are different because:

Bond insurance premiums paid at closing are amortized over the term of the refunding bonds.

63,214

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in the governmental funds.

8,338,990

Deferred tax revenues and deferred penalty and interest revenues on delinquent taxes for the 2013 and prior tax levies became part of recognized revenues in the governmental activities of the District.

124,149

Certain liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. These liabilities at year end consist of:

Accrued Interest Payable	\$ (183,255)	
Bonds Payable Within One Year	(955,000)	
Bonds Payable After One Year	<u>(13,447,653)</u>	<u>(14,585,908)</u>

CHIMNEY HILL MUNICIPAL UTILITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

NOTE 1. CREATION OF DISTRICT

Chimney Hill Municipal Utility District, located in Harris County, Texas (the “District”), was created effective September 16, 1976, by an Order of the Texas Water Rights Commission, presently known as the Texas Commission on Environmental Quality (the “Commission”). Pursuant to the provisions of Chapters 49 and 54 of the Texas Water Code, the District is empowered to purchase, operate and maintain all facilities, plants and improvements necessary to provide water, wastewater service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, and to construct and maintain parks and recreational facilities for the residents of the District. The District is also empowered to contract for or employ its own peace officers with powers to make arrests and to establish, operate and maintain a fire department to perform all fire-fighting activities within the District. The Board of Directors held its first meeting on December 17, 1976, and the first bonds were sold on November 17, 1977.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statement as component units.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

- Net Invested in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

Government-Wide Financial Statements (Continued)

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenues and expenses in the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Governmental Funds Balance Sheet and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances.

Governmental Funds

The District has four governmental funds and considers these funds to be major funds.

General Fund - To account for resources not required to be accounted for in another fund, customer service revenues, costs and general expenditures.

Special Revenue Fund - To account for financial resources collected and administered by the District for the operation of the wastewater treatment plant.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Capital Projects Fund - To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenues reported in the governmental funds to be available if they are collectable within 60 days after year-end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

CHIMNEY HILL MUNICIPAL UTILITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Property taxes considered available by the District and included in revenues include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as an expenditure in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Developer interest, engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost of \$15,000 or more and a useful life of at least two years. Depreciation is calculated on each class of depreciable property using no salvage value and the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Buildings	40
Water System	10-45
Wastewater System	10-45
Drainage System	10-45
All Other Equipment	3-20

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgeting

In compliance with governmental accounting principles, the Board of Directors annually adopts unappropriated budgets for the General Fund and the Special Revenue Fund. The General Fund budget was amended during the current fiscal year.

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by Directors are considered to be wages subject to federal income tax withholding for payroll tax purposes only.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets, liabilities, and deferred inflows and outflows of resources associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Governmental Funds Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

CHIMNEY HILL MUNICIPAL UTILITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances. The District does not have any assigned fund balances.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount, and are further payable from and secured by a lien on and pledge of the net revenues to be received from the operation of the District's waterworks and wastewater system.

During the year ended September 30, 2014, the District levied an ad valorem debt service tax at the rate of \$0.59 per \$100 of assessed valuation, which resulted in a tax levy of \$1,418,305 on the adjusted taxable valuation of \$240,043,871 for the 2013 tax year. The bond resolutions require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes, see Note 7 for maintenance tax levy.

The District's tax calendar is as follows:

Levy Date - October 1 or as soon thereafter as practicable.

Lien Date - January 1.

Due Date - Not later than January 31.

Delinquent Date - February 1, at which time the taxpayer is liable for penalty and interest.

NOTE 4. SIGNIFICANT BOND RESOLUTIONS AND LEGAL REQUIREMENTS

A. The bond resolutions state that any profits realized from or interest accruing on investments shall belong to the fund from which the moneys for such investments were taken; provided, however, that at the discretion of the Board of Directors the profits realized from and interest accruing on investments made from any fund may be transferred to the Debt Service Fund.

CHIMNEY HILL MUNICIPAL UTILITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

NOTE 4. SIGNIFICANT BOND RESOLUTIONS AND LEGAL REQUIREMENTS
(Continued)

- B. The bond resolutions state that so long as any of the bonds remain outstanding, the District covenants that it will at all times keep insured such parts of the system as are customarily insured by municipal corporations and political subdivisions in Texas operating like properties in similar locations under the same circumstances with a responsible insurance company or companies against risks, accidents or casualties against which and to the extent insurance is customarily carried by such municipal corporations and political subdivisions; provided, however, that at any time while any contractor engaged in construction work shall be fully responsible therefor, the District shall not be required to carry such insurance.

The District has physical damage coverage of \$10,090,450, boiler and machinery coverage of \$10,090,450 and pollution liability and pollution clean-up and removal coverages of \$5,000,000. The District also has general liability coverage with a maximum limit of \$5,000,000.

- C. The District has covenanted that it will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the bonds, within the meaning of section 148(f) of the Internal Revenue Code, be rebated to the federal government. The minimum requirement for determination of the rebatable amount is on each 5th-year anniversary of each issue.

In compliance with this covenant, the 5th year arbitrage rebate report was completed for the Series 2009 refunding bond issue and the final arbitrage rebate reports were completed for the Series 2003 bond issue and the Series 2004 refunding bond issue. The reports reflect that the District did not have a rebate obligation to the federal government on these bond issues.

- D. The bond resolutions state that the District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data to each nationally recognized municipal securities information repository and the state information depository. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$4,791,202 and the bank balance was \$4,845,417. Of the bank balance, \$2,289,447 was covered by federal depository insurance and the balance was collateralized by the pledge of securities held in safekeeping by a third-party institution in the District's name.

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at September 30, 2014, as listed below:

	<u>Cash</u>	<u>Certificates of Deposit</u>	<u>Total</u>
GENERAL FUND	\$ 1,694,703	\$ 787,560	\$ 2,482,263
SPECIAL REVENUE FUND	18,077		18,077
DEBT SERVICE FUND	1,323,683	590,991	1,914,674
CAPITAL PROJECTS FUND	<u>376,188</u>	<u> </u>	<u>376,188</u>
TOTAL DEPOSITS	<u>\$ 3,412,651</u>	<u>\$ 1,378,551</u>	<u>\$ 4,791,202</u>

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under

prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. Authorized investments are summarized as follows: (1) obligations of the United States or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states, agencies, counties, cities, and other political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) insured or collateralized certificates of deposit, (8) certain fully collateralized repurchase agreements secured by delivery, (9) certain bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

All investments are recorded at cost which the District considers to be fair value. The District invests in TexPool and TexSTAR, external investment pools that are not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool. Federated Investors, Inc. manages the daily operations of TexPool under a contract with the Comptroller. First Southwest Company and J.P. Morgan Investment Management, Inc. manage the daily operations of TexSTAR. The fair value of the District's position in each pool is the same as the value of pool shares.

As of September 30, 2014, the District had the following investments and maturities:

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At September 30, 2014, the District's investments in TexPool and TexSTAR were rated "AAAm" by Standard and Poor's.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investments in TexPool and TexSTAR to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value.

Restrictions

All cash and investments of the Special Revenue Fund are restricted for the payment of wastewater treatment plant operations.

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes.

The District has financed water and drainage facilities which have been conveyed to other entities for maintenance.

NOTE 7. MAINTENANCE TAX

On January 15, 1977, the voters of the District approved the levy and collection of a maintenance tax not to exceed \$0.25 per \$100 of assessed valuation of taxable property within the District. On November 5, 2013, voters of the District approved to increase the maximum maintenance tax rate to \$1.00 per \$100 of assessed valuation. This maintenance tax is to be used by the General Fund to pay expenditures of operating the District's waterworks and wastewater system. During the year ended September 30, 2014, the District levied an ad valorem maintenance tax at the rate of \$0.29 per \$100 of assessed valuation which resulted in a tax levy of \$697,133 on the adjusted taxable valuation of \$240,043,871 for the 2013 tax year.

NOTE 8. WATER SUPPLY AGREEMENTS

Camfield Municipal Utility District

On December 30, 1980, the District executed a water supply agreement with a developer within Camfield Municipal Utility District (“Camfield”). Subsequent to that date, the contract was assigned to Camfield Municipal Utility District and has had four supplemental agreements executed. The general term of the agreements is 40 years from the date of execution.

The agreements provide for the District to construct a 1,200 gallon-per-minute water well and plant. The District and Camfield agreed to provide their own service lines to connect to the new well and plant. The District owns the plant and site. In accordance with the agreement, Camfield paid the District \$20,000 which was recorded as revenue in a prior year. The District purchased the water plant site from Camfield for \$20,000 which was paid from the Capital Projects Fund.

The District agrees to provide Camfield 50,000 gallons per day of water at a cost of 2 1/4 times the single-family residential rate charged by the District. Camfield agrees to pay a minimum payment of \$900 per month from the date of actual connection to the system. Any excess payment beyond usage shall be carried forward from month to month. Camfield has used all of its excess payments. The term of the agreement is 40 years and thereafter from year to year. Either district may terminate the agreement by giving one year written notice; however, if water usage by Camfield falls below 5,000 gallons per day for six out of twelve consecutive months, then either district may terminate the agreement by giving six month’s written notice.

During the current fiscal year, the District recorded revenue of \$59,859 for water supplied to Camfield. At September 30, 2014, Camfield owed the District \$23,759 for water supplied under the terms of this agreement.

Spencer Road Public Utility District

On December 20, 1977, the District entered into an emergency water supply contract with Spencer Road Public Utility District (“Spencer Road”). Each district is responsible for one-half of the cost of constructing the interconnect line and one-half of all repairs and maintenance of the connecting valve. Each district is also responsible for maintaining and repairing that part of the facilities within their boundaries. The term of the contract is 40 years. The contract was amended on May 13, 2002 to revise the price to be paid for water.

The price to be paid by any party using water under this contract shall be the current rate that the District is paying the City of Houston (“COH”) plus \$0.25 per 1,000 gallons of water used. If the District has already purchased the minimum monthly quantity from COH at the time the interconnect is opened by Spencer Road or the opening of the interconnect for Spencer Road causes the District to purchase more than the minimum monthly quantity from COH, Spencer Road shall also pay all penalties and surcharges incurred by the District. Each party shall render

a bill to the other on or before the 19th day of each month for water supplied during the preceding calendar month, as measured by the flow meter installed, and such bill shall be due and payable 30 days after such bill is rendered.

An 8-inch electronic bi-directional flow-meter has been constructed and installed by the District. The District paid \$29,654 for the flow-meter installation, and Spencer Road agrees to pay 50 percent of the costs, \$14,827. The District is allowing Spencer Road a credit of \$2,485 for costs incurred by Spencer Road for remote meter reading equipment installation. The total agreed upon payment by Spencer Road is \$12,342. Spencer Road shall pay this amount in the form of a flow-meter fee of \$0.75 per 1,000 gallons of water pumped through the flow-meter in addition to the rate agreed to above.

City of Houston, Texas

Effective March 3, 1998, the District entered into a water supply contract with the City of Houston (“COH”). The District constructed water supply facilities at an approximate cost of \$1,027,617 to allow for the District to receive water from the City of Houston. The District was responsible for 58 percent of the cost of constructing the water main on FM 529 and 100 percent of the cost of the water tap and water main on Mayard Road. COH’s share of the project was limited to \$321,000. On March 23, 2001, the District conveyed to COH title to the FM 529 water main and the Mayard Road tap and meter. COH is responsible for operating, maintaining, repairing and replacing the facilities conveyed to it. As a result of this contract, the District has achieved more than 80 percent reduction in its groundwater withdrawals and has opted out of the West Harris County Regional Water Authority.

The charge for water shall be in accordance with the rates for contract treated water customers established by COH ordinance. The rate at the beginning of the current fiscal year was \$2.6903 per 1,000 gallons. Effective April 1, 2014, the rate increased to \$2.722 per 1,000 gallons. The District’s current minimum bill is based upon 0.462 million gallons per day times the number of days in the billing period. COH adds an additional fee to all usage over the minimum bill, determined by multiplying the excess gallons used (expressed in units of 1,000 gallons) times the current rate. The excess usage rate is currently \$0.675. The District can revise its minimum quantity no more that once each calendar year. The term of the contract is 40 years.

During the current fiscal year, the District recorded an expenditure of \$458,445 for water purchased from COH.

NOTE 8. WATER SUPPLY AGREEMENTS (Continued)

Harris County Municipal Utility District No. 130

On May 8, 2002, the District and Harris County Municipal Utility District No. 130 (“District No. 130”) entered into an interim and emergency water supply contract. District No. 130 is responsible for constructing and maintaining the interconnect line at its sole cost and expense.

The price to be paid for water during an emergency shall be the greater of (1) \$1.50 per 1,000 gallons of water delivered, as measured by the flow meter; or (2) \$0.25 per 1,000 gallons of water delivered plus the cost per 1,000 gallons paid by the supplying district to purchase water from another entity. In addition, all reasonable costs incurred by the supplying district in implementing the interconnect during an emergency shall be borne by the district receiving water. The term of this portion of the contract is ten years and shall continue for additional one-year periods unless terminated by either district by providing 60 days written notice.

On July 1, 2003, the contract was amended and restated to provide for a metered bypass line at the point of delivery, for use during the emergency delivery of water. Each district will pay half the cost of the bypass line construction and bypass meter purchase and installation. Each district will pay half the costs of maintaining the bypass line and bypass meter.

On May 27, 2005, the District approved a letter agreement with District No. 130 whereby the District agreed to terminate the interim water supply provisions. In accordance with Section 4.04 of the contract, termination of the interim water supply provisions during the initial five-year term became effective when: (1) the City of Houston agreed to reduce the District’s monthly allotment of water purchased pursuant to the contract between the City of Houston and the District or the District agreed to assume District No. 130’s monthly allotment, and (2) District No. 130 acquired a permanent water supply through the West Harris County Regional Water Authority (the “Authority”) or the Copperfield Consortium. The District agreed to assume District No. 130’s 1.2 million gallons per month allotment under the contract. By letter dated May 1, 2007, District No. 130 notified the District that District No. 130 had acquired a permanent water supply from the Authority; therefore, the interim water supply to District No. 130 ceased.

NOTE 9. WASTE DISPOSAL AGREEMENT

On April 13, 1984, the District executed a waste disposal agreement with Camfield Municipal Utility District (“Camfield”). On October 12, 1984, a supplemental waste disposal agreement was executed. On May 20, 1988, a second supplemental waste disposal agreement was executed. The agreement allowed the District to construct a 600,000 gallon per day (gpd) wastewater treatment plant on a site designated by Camfield. The agreement gave Camfield the right to acquire capacity of 60,000 gpd in the initial phase of the plant provided that Camfield

NOTE 9. WASTE DISPOSAL AGREEMENT (Continued)

paid a pro rata share of the costs of design and construction. Camfield and its developer were responsible for all reasonable costs associated with the relocation of the plant site.

On September 11, 1992 a restated waste disposal agreement was executed. This agreement sets forth provisions for the first phase of construction of the plant, future enlargements and amendments to the waste discharge permit held jointly by the parties. This agreement sets aside all prior agreements between the District and Camfield relating to waste disposal. The agreement includes specifications for expansion of the plant by one or both of the parties.

The District will operate the plant and hold title for the benefit of the parties. The term of the agreement is 40 years.

During fiscal year 1992, the initial phase of the plant was completed at a total cost of \$1,674,966 which included the plant site, engineering, and construction costs. Camfield's ten percent share was \$167,497. The District's 90 percent share was \$1,507,469. Camfield paid \$167,497 to the District for its pro rata share of the costs.

Amendment No. 1 to the agreement dated October 21, 1993, reduced the ultimate capacity of the plant from 1,500,000 gpd to 900,000 gpd. Amendment No. 2 to the agreement dated May 28, 1999, authorized the transfer of Camfield's interest in the waste discharge permit to the District. The amended permit was approved by the Commission on May 4, 1999. Amendment No. 3 dated June 9, 2000, transferred 10,000 gpd capacity from Camfield to the District. The ultimate capacity of the plant was increased from 900,000 gpd to 1,200,000 gpd. In 1999, the District began the design of the Plant expansion to reach the ultimate capacity. The District was responsible for 100 percent of the expansion costs. The Plant expansion was completed in November of 2004.

	Current Capacity	Percentage of Ownership
Chimney Hill Municipal Utility District	1,150,000 gpd	95.84
Camfield Municipal Utility District	50,000	4.16
	1,200,000 gpd	100.00

The participating districts are billed for operating charges on a monthly basis. The monthly billing to each district is based on the amount of flow to the plant from each district. An operating reserve of \$20,000 has been established by the districts, \$18,000 advanced by the District and \$2,000 advanced by Camfield. During the current year the District recorded expenditures of \$449,123 for purchased wastewater service. Separate financial statements on the wastewater treatment plant can be obtained by contacting Coats, Rose, Yale, Ryman & Lee, P.C. at (713) 651-0111.

NOTE 9. WASTE DISPOSAL AGREEMENT (Continued)

On November 10, 2010, an agreement between the District, Camfield and TVH Land Company, L.P. (“TVH”) was executed for the construction and maintenance of an access road to the wastewater treatment plant. The District was responsible for 50% of the construction costs for the road improvements and TVH was responsible for 50% of the costs with the understanding that TVH’s share included Camfield’s portion of the costs. Construction of the access road was completed in 2012 for a total cost of \$227,336. The District is responsible for road maintenance and then the costs are to be shared among the parties as follows: the District-50%, TVH-45.84% and Camfield-4.16%. The term of this agreement is 25 years.

NOTE 10. STRATEGIC PARTNERSHIP AGREEMENT

Effective July 11, 2006, the District entered into a Strategic Partnership Agreement with the City of Houston, Texas. The agreement provides that in accordance with Subchapter F of Chapter 43 of the Local Government Code and the Act, the City shall annex a tract of land defined as the “Tract” for the limited purposes of applying the City’s Planning, Zoning, Health, and Safety Ordinances within the Tract within the boundaries of the District. The District will continue to develop, to own, and to operate and maintain a water, wastewater, and drainage system in the District.

All taxable property within the District shall not be liable for any present or future debts of the City, and current and future taxes levied by the City shall not be levied on taxable property within the District. Upon the limited-purpose annexation of the Tract, the City’s municipal courts shall have jurisdiction to adjudicate criminal cases filed under the Planning, Zoning, Health and Safety Ordinances and State laws. Provisions of the Regulatory Plan adopted by the City will be applicable to the District and the Tract of land within the District. The District’s assets, liabilities, indebtedness, and obligations will remain the responsibility of the District during the period of this agreement.

After the Tract is annexed for limited purposes by the City, the qualified voters of the Tract may vote in City elections pursuant to Local Government Code. The City is responsible for notifying the voters within the Tract.

The City imposes a Sales and Use Tax within the boundaries of the Tract upon the limited-purpose annexation of the Tract beginning October 1, 2006. The Sales and Use Tax is imposed on the receipts from the sale and use at retail of taxable items at the rate of one percent or the rate specified under the future amendments to Chapter 321 of the Tax Code. The City agreed to pay to the District an amount equal to one-half of all Sales and Use Tax receipts generated within the boundaries of the Tract. The City agreed to deliver to the District its share of the sales tax

receipts within 30 days of the City receiving the funds from the State Comptroller's office. During the current fiscal year, the District recorded sales tax receipts of \$74,367 of which \$20,521 was recorded as receivable at the end of the year.

The City agreed that it will not annex the District for full purposes or commence any action to annex the District for full purposes during the term of the Agreement. The term of the Agreement is 30 years from the effective date of the agreement.

The City and the District entered into a First Amended and Restated Strategic Partnership Agreement effective December 13, 2010, which supersedes and replaces the original Strategic Partnership Agreement and adds various tracts to the original area annexed for limited purposes.

NOTE 11. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three fiscal years.

NOTE 12. INTERFUND PAYABLES/RECEIVABLES

The General Fund owes the Debt Service Fund (Tax Account) \$11,153 for an over transfer of maintenance tax collections.

The General Fund owes the Special Revenue Fund \$45,098 for its share of Wastewater Treatment Plant operating costs.

The Debt Service Fund owes the General Fund \$3,475 for bond issuance costs for the Series 2011 Refunding Bonds and Series 2014 Refunding Bonds.

NOTE 13. REFUNDING BOND SALE

On September 18, 2014, the District issued its \$5,090,000 Series 2014 Unlimited Tax Refunding Bonds to refund its Series 2003 bonds in the amount of \$2,995,000, a portion of its Series 2004 refunding bonds in the amount of \$1,445,000, and Series 2008 bonds in the amount of \$625,000. Bond proceeds of \$5,091,076 plus \$102,000 from the Districts Debt Service Fund were deposited in an irrevocable escrow fund to redeem the refunded Series 2003 bonds and Series 2004 refunding bonds on September 19, 2014, and the balance was used to purchase United States Treasury securities to redeem the Series 2008 bonds maturing May 1, 2024 on October 1, 2015. As a result, the liability for those bonds has been removed from the Statement of Net Position. The effect of the refunding was to obtain gross debt service savings of \$334,279 and net present value savings of \$282,216.
